

October 27, 2010

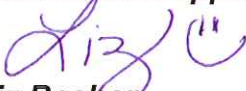

*Dear Business and/or Property Owner,*

*The weekly meetings to discuss the status of the West Yellowstone Hwy reconstruction project have come to an end. We began the meetings in mid-April as the project took shape and have met weekly to review the progress with WYDOT, Hedquist Construction, and their subcontractors. Your participation and feedback has been truly appreciated. Work will continue with the streetscape amenities through November, but the actual road construction is complete.*

*If you should have questions or issues over the next month, please don't hesitate to contact us at the City of Casper. We will see that your concern is addressed promptly. Our contact information is listed below.*

*Special thanks to the businesses that hosted the construction meetings... Sherrie's Place, Martin's Co-op, Yellowstone Garage, Casper-Natrona County Health Department, Iris Movie Theatre, Shawn Rivett, Prazma Paint & Autobody, and Wyo Central Federal Credit Union. Your personal involvement added to the communication success with this project!*

*With sincere appreciation,*
